

EXTREME DNC

SHOP FLOOR NETWORKING

- 
- Communicate with 1023 CNC's from a single computer
 - Drip-feeding & Bi-Directional communication with all ports.
 - Unique Inbox, Outbox & Secure Directory infrastructure.
 - NC/File Structure standardization & ISO9000-9001 compliancy.

NO MODULES OR OBJECTS

Print to any station from any Client or Server. Automatic E-mail notification of CNC status. Auto-Rename & Auto-Tag NC/Files to facilitate standardization. Integrate and control eXtremeDNC from 3rd party software applications. Schedule processes, Data Base configuration, On-Demand and Interactive Commands for users.

- 
- (EESTM) Easy Explorer System.
 - (OASTM) Open Architecture Sytem.
 - (SSATM) Server Smart Architecture.
 - Heads up view of Local, Mapped or Network Drives.

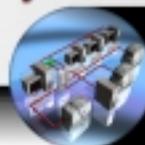

HEADS UP VIEW APPLICATION

Copy, Move, & Delete NC/Files, directly from eXtremeDNC. Drag & Drop features make usage an ease. Unlimited search paths per control, provide absolute control of every CNC. Auto-renameTM and Auto-tagTM NC/file names to facilitate standardization. Server Smart Architecture maintains NC/File transmission even during File Server Failure or loss of File Server Net-Work connections.

- 
- Control an unlimited number of CNC's from a single client.
 - Live & interactive control of eXtremeDNC server.
 - User rights, live log on & log off without server interruptions.
 - Trouble shoot events from anywhere on your network.

Intelligent Connectivity for Today and Tommorrow's Manufacturing!
